Docket # 98P-0203/CP

This letter is to support a petition requesting a forced molting ban submitted by United Poultry Concerns. I find this procedure revolting as well as inhumane as do so many people. In fact the more information the consumers finds out about the treatment of farm animal and poultry the harder your job will be. I hope you will stand up to criminals here and stand united with the consumers.

Thank you
Donna DeFiore
